In 2020, the YMCA of Greater Moncton celebrated 150 years of serving Greater Moncton... a legacy of building healthy, strong, and connected communities where everyone belongs.

Looking back, 2020 was an exceptional year - the effects of this pandemic have been profound and has moved us all to a new normal. We are grateful to be able to look back on our accomplishments, our legacy and learnings this past year. Although our world changed and we are all in very different place – as individuals, as a community and as a YMCA - our YMCA remains a constant.

At the YMCA, we are always evolving to respond to the needs of our communities and to reflect the diverse and ever-changing nature of those who make up the YMCA. This past year was no exception as early on we faced the closure of our Vaughn Harvey location and saw the completion and opening of the new YMCA Moncton North – allowing us to extend our reach and strengthen our impact.

With the new complexities of daily life, as a YMCA, we have an even more critical role to play. Everyone needs access to a healthy lifestyle regardless of economic circumstances. Children need strong role models to help them develop the values and skills to successfully navigate the challenges they face at home, in school and community. Youth need safe spaces to socialize and gain leadership skills. Adults need safe and reliable childcare as well as an opportunity to unwind, unplug and stay fit. Seniors need to stay active physically, mentally and socially. People at all ages and stages thrive when they are connected to a community.

We are very proud of the impacts we have had on those we serve and of our ability to adapt and address local community needs. We cannot do this alone. We are grateful to our Y members who stayed with us, to our staff and volunteers who continue to innovate, engage and seek feedback so that we can continue to meet the emerging needs in our community. This work is possible thanks to the support of many donors, community and funding partners who believe that what we do and who believe that we are better together.

150 years of service

Through the decades, our community has grown by leaps and bounds and to ensure we continue to meet its needs, the YMCA must grow with it.

Opening September 2020, the new YMCA Moncton North allows us to extend our reach and strengthen our impact. We were pleased to have been asked to partner with the City of Moncton to build the new facility – together, with the citizens, we are driven by a shared vision of a healthier, more connected community.

This was made possible thanks to the support of all three levels of government and our donors who helped us achieve \$2.6 million of the \$3-million target. In light of the pandemic, our work to achieve the [goal](#) is not done!

WHAT ARE PEOPLE SAYING

We have truly appreciated [ReConnect](#)'s accessibility to come when needed to do an intake or to speak with a community friend. By working together with [ReConnect](#) ensures that we spend our resources – time, talent and treasure – in sustainable ways.

St. George's Anglican Church

[PlusOne](#) is a great opportunity to get involved in your community. It can help you develop a better sense of self, while learning to interact with others. [PlusOne](#) helps youth find their voice in their community as well. You become a role model and someone a young person looks up to, which to me, is priceless.

Caroline Korytko
Y Plusone Mentor

Our family has been part of the Greater Moncton YMCA community for over 30 years. From playschool and swimming lessons, to volunteering in the gym, to taking fitness classes and using the new walking track, the Y has always been part of our evolving lifestyle. It is important to us to be engaged, educated, and healthy citizens of our community and the Y provides us with opportunities to do so. Moreover, we [donate](#) to the YMCA's other initiatives so that other members of our community can have greater access to the same opportunities as our family.

Y Members

In the case of [Franco-Jeunes CAFi](#), the YMCA welcomed us with open arms. Our program is usually offered at Le Sommet school but with the pandemic, they had no rooms for us so we almost had to cancel the program. Then they suggested the YMCA. At first, I didn't know realize space was available free of charge to other non-profit organizations. The staff at the YMCA are very kind and welcoming and our staff, the parents, the kids and myself are very grateful!

We are the centre of a community; a safe place for people to gather and connect. COVID-19 has made that more difficult, creating isolation and challenging our ability to deliver our programs and services in conventional ways.

It would be impossible to achieve to our mission without the help of our many generous donors, sponsors and community partners ([view list here](#)). On behalf of everyone impacted by the YMCA – thank you.
